VOLUME IV No. 6 — CHICAGO, OCTOBER 22, 1918 — 5,000 CIRCULATION GUARANTEED

The next meeting of the Suangataha Club will be held Tuesday evening, October 22nd, at the home of its President, Miss Anna M. Uhlhorn, 7624 S. Sangamon St. Among those present at Hamilton Park last Tuesday evening were Misses Olive Armstrong, Josephine Barron, Dorothy Carlson, Edna Carlson, Josephine Cramer, Elizabeth Drysdale, Marie Jordan, Maybellé Kohr, Anna O'Shaughnessy, Margaret Ross, Mathilda Seum, Anna Uhlhorn, Rosetta Wilmarth and Tillie Yachimstal. Account of the present epidemic there will be no meetings there until the disappearance.

Mrs. Selma Wehner, 8052 Loomis St., was laid to rest in St. Mary's cemetery on Tuesday morning. Requeim Mass was sung at St. Sabina's church.

James Downs, 8450 Halsted St., Mrs. Soraz, 8942 Halsted St. and Mrs. Donahue, 8416 Sangamon St., are among the grippe sufferers.

Fred Fleischauer, 7712 Morgan St., was laid to rest in Mt. Greenwood on Tuesday afternoon. Mrs. Fleischauer is ill with pneumonia.

The women of the Seventh Presbyterian church will continue their rummage sale another week at 87th and Vincennes Ave.

Lyndon Perry Mayeskie, Yeoman, United States Navy, son of Mr. and Mrs. John R. Mayeskie, 8012 South Throop Street, spent five days' furlough with his folks, returning to Great Lakes Naval Training Station Sunday the 20th. He is now at Camp Luce awaiting orders to be shipped to sea.

Lyndon Mayeskie comes from a family who are always ready and willing to serve their country in any capacity. His older brother, John Roy Mayeskie, Jr., is also in the United States Navy, serving as Pharmacist's Mate in a Hospital in Minneapolis under instructions of the faculty of the University of Minnesota.

John R. Mayeskie, Sr., served in the old Second Infantry and was a First Lieutenant in that regiment during the Spanish-American war, doing duty in Cuba. Mrs. Amanda K. Mayeskie, the mother of these two boys, is President of Federal Auxiliary of the United Spanish War Veterans and is actively engaged in Red Cross Work and work in connection with the old regiment. John R. Mayeskie, Sr., too old to get into active service in the present war, is trying to do his bit by serving as Major of the First Battalion of the Chicago Police Reserve. He is the man who built up the fine Company of Police Reserves drilling every Wednesday evening at the Normal High School, known as Company No. 11. He says it will pay good law-abiding citizens to become members of that organization. The body of men is doing effective work during the present influenza epidemic.

OGLESBY PARENT TEACHER ASSOCIATION

The October meeting of the Parent-Teachers Association of Oglesby School has been postponed until further notice.

On Monday, Oct. 28th, a General Tag Day will be observed all over the city for the "Fatherless Children of France." Our local committee expects to be out early so that you may secure your tags before going to the Loop. Please be generous and let us roll up a nice total for Auburn Park.

This is a most worthy cause—a part of our debt to France—and in no way could a small sum of money be put to better use. The pupils of Oglesby School have already "adopted" eight French orphans, but there are hundreds of thousands of these orphans who look to us to help them as we have helped others. Let us not disappoint them.

Make Him Proud of You

Your boy—your soldier boy—is home for the Holiday. How manly, how strong he is—what a splendid representative of his country.

Look at the smile—the gleam of pride in his eye as he stands there in his khaki—Uncle Sam's khaki—the khaki honored and respected 'round the world. You feel as proud of his clothes as he does.

But how about your own? Does he—DO YOU—feel the same pride about YOUR clothes? Will your boy upon his homecoming feel as proud of your appearance as you will of his? If there is the slightest doubt in your mind come in and see us. Make him smile when he comes home, and say, "Gee, Dad, but you are surely looking fine."

Our clothes show style and individuality in the tailoring—in the fabrics—in the patterns. The value is there—therefore the wear is assured.

First the leading thought of the scientific mind of the medical world is sanitation to prevent diseases. One should be as sanitary of the body for health as the living surroundings, to prevent disease. A good germicide should be used daily, at this time especially, as there is the plague of Spanish influenza or la grippe that is rife in the land, taking its toll by the hundreds. Would you get in front of a fast moving train and not expect to get run over and destroyed? Oh, no. Well, that is what the majority are virtually doing today by not securing a good germicide to be used daily in their homes.

Ugargle is the name of a germicide that has been tried and proven

To illustrate it to you, one of the leading mechanics of Chicago was recently attacked with bronchial pneumonia, so his family physician said, and gave him a prescription to take, but he was suffering so he asked that the bottle of Ugargle be given him, thinking it might relieve him while they were getting the prescription filled, and the results were even greater than he anticipated, so he kept up the germicidal treatment that evening, and to the astonishment of his family, the following day returned to his work feeling fine, as all symptoms had disappeared.

Ugargle may prevent you from a bad case of rheumatism or some other infectious condition that is destructive to human life and happiness. The scientific mind is giving more time and thought of how to prevent diseases than to cures. We are living in an age that people really do things. What is the practice and custom of people today is relegated to the junk pile tomorrow.

While we are manufacturing Whitlock's Specific, a blood remedy

that has merits that we have not language to describe, we would rather sell a one dollar bottle of prevention than a $10.00 cure. Now, as to a treatment of diseases of the body, it makes no difference to us by what name of disease or what part of the body affected, a real blood remedy will restore the mineral balance to your system and good health follows. Our contention is that the blood is the fluid or generating power of life, and when any one of the eliminating organs of the body becomes congested the blood may soon become full of toxic poisons, and any disease or symptoms may develop, and to restore that condition you must remove the cause. To illustrate: One may have a malignant tumorous growth removed by the knife, and in a few weeks or months it may return again.

What do we learn from the outcome of this operation? Well, there is one thing definitely we learn, and that is removing a tumorous growth by the knife does not cure or immune the patient from tumors. Why? Well, the effect of a cause has only been removed, and not the cause. The cause still remains in the blood. If this was not true, when a tumor is removed from the body by the knife it would not come back again. Ask your doctor if this is not true. We could cite you hundreds of cases here in Chicago to verify this statement, but space will not permit. This statement is not meant as a reflection upon surgery, which is an exact science and in many cases is necessary.

It has been demonstrated by surgical science that a human being can live without many members and accessories of the body with which he is born. He may live a useful life without an arm, a leg, or both; without a few feet of bowel; without his vermiform appendix, an eye, hair, and even a stomach; but no human being or animal can live a second without blood. Impure blood, on the other hand, is sometimes worse than no blood. A man without blood dies, that's all. But a man with impure blood dies a hundred deaths. Remember Whitlock's Specific is a Blood Purifier and renews the blood.

If you are sick or in a rundown condition from any cause, call and see the

DON'T WASTE your time experimenting. We have done this for you. Have tested out a number of Indiana and Illinois coals and found them all to be pretty good. We finally selected a coal mined in Saline County, southern Illinois, known as "Harrisburg Io Heat." The coal comes in egg sizes, free burning, no clinkers and gives a tremendous heat. Can be burned in any kind of furnace, hot water or steam plants, also in stoves, and is unexcelled for hard coal furnaces. Put your supply of coal in now while the getting is good. If you don't heed the warning now you may find yourself out of coal later on. Order now. We deliver anywhere. Phone Stewart 70. We have no hard coal. J. E. Memer & Son, 7181 and Rock Island R. R.

Colonial Tea Co.
7807 S. Halsted St.

This is a period of high prices, but our prices are not high compared to the wholesale price of goods. We are now selling many articles for less than wholesale prices on account of large purchases made in advance.

Coffees and teas will be higher. We are still selling same grade of coffee at 20c, 23c, 28c and 32c the pound. Best grade uncolored Japan tea at 49c the pound; it's regular 70c grade tea. The more tea you buy the more you save.

REPUBLIC SPECIAL

A truck like this—at $1,295

This Republic Special, with a loading capacity of 2,000 pounds, offers a real buying opportunity. It's a value that cannot be duplicated.

Furnished with either Open Express, as illustrated, or Stake body, built especially for this chassis, it is idealy suited to a wide range of business uses.

Designed and built by truck specialists who build nothing but trucks and know truck problems and requirements. It's a **real** truck, built to stand up and do its work day after day, year after year.

The frame is of pressed steel channel section; the semi-elliptic springs, front and rear, are of extra large and strong alloy steel; the radiator, Republic armored type for heavy duty; cooling system, carburetor, transmission, motor and every part is designed and built expressly for truck requirements.

And it has the Torbensen Internal Gear Drive, delivering from 12 to 26 per cent more of the motor power to the wheels than any other type of drive. That means a saving in gasoline. A separate load carrying axle of solid forged steel reduces the unsprung weight, and that means longer life to tires. Many other Republic features contribute to long life and low upkeep.

Protect yourself against almost certain price advances. A phone call will bring one of our representatives with full information.
